

Peat Gas Field (PL 101)

2.125% Overriding Royalty Interest

Area: 241km²

Operated by Australia Pacific LNG JV partnership (Australia Pacific LNG Pty Limited (50%) and Australia Pacific LNG (Moura) Pty Limited (50%))

Permit PL 101 located in the Bowen Basin, contains the Peat CSG field. The Peat CSG field is one of the first CSG fields in south-east Queensland, having commenced production in 2001.

The Peat CSG field has a long-term gas sale contract to supply CSG to BP's Bulwer Island Clean Fuels Project in Brisbane. High Peak has a 2.125% Overriding Royalty Interest over PL 101.
