

Western Flank-Cooper Basin (PEL 512)

1.3% Overriding Royalty Interest

Area: 2,366km²

The Western Flank of the Cooper Basin is attracting attention due to the success being achieved by Beach Energy Ltd in PEL 91 and PEL 92. Beach Energy Ltd has achieved high success rates in these adjoining permits by utilising 3D seismic.

High Peak has a 1.3% Overriding Royalty Interest over PEL512.

The permit is operated by a Houston headquartered oil and gas company, Discovery Energy Corp through its wholly-owned Australian subsidiary Discovery Energy SA Limited (Discovery).

Discovery are seeking a Joint Venture partner.
