

Surat Basin CSG Project (PL171 / ATP574P)

2.5% Overriding Royalty

Interest Area: 407km²

Operated by Shell Australia

In the Surat Basin in south-east Queensland, High Peak has royalties over two development assets, PL 171 and ATP 574 P CSG permits. PL 171 and ATP574P are contiguous permit areas and are both operated by Shell, with partners CNOOC Coal Seam Gas Company Pty Ltd and Tokyo Gas QCLNG Pty Ltd.

Adjacent areas have been developed for LNG export and it is only a matter of time before these areas are developed.

High Peak has a 2.5% Overriding Royalty Interest over both PL171 and ATP574P.
